

PUBLIC MEETING NOTICE

January 28, 2019

Draft cost of electric service study to be presented Wednesday

Merced Irrigation District will present the results of a draft cost of service study for its electric rates and energy costs. The study has been developed over several months.

The purpose of the study is to identify all costs required to operate the MID electric system, and to ensure allocation of the costs are being distributed in an equitable manner. The outcome of the study will identify whether the current rates for each rate class of MID Customer are appropriately or adequately recovering the costs to serve the rate class.

The meeting will be held at 5:30 p.m. on Wednesday, Jan. 30, at the Merced Civic Center, 678 W. 18th St. in Merced.
