

MERCED IRRIGATION DISTRICT
ELECTRICIAN (WATER)
FLSA STATUS – Non-Exempt
Bargaining Unit – IBEW, Local 1245
Classification Level – Per IBEW Wage Schedule
One (1) Position

DEFINITION

Under supervision, participate in the installation, repair, and maintenance of District electrical and mechanical systems and wiring, including monitoring and controls. Perform maintenance, repairs and installations of related pumps, motors, control and monitoring equipment and plumbing both indoors and outdoors. Generally related but not limited to water distribution systems and facilities including booster and well pumps, motors, automated structures and equipment. Perform related work as required throughout the MID.

ESSENTIAL FUNCTIONS OF THE POSITION:

- To assist fellow employees on the job.
- Keep detailed records of job sites, scope of work, repairs and parts and materials used.
- Use cutting torch, welder, and other required tools in a proficient manner.
- Straighten and repair pump shafts and replace bearings as needed.
- Install, troubleshoot, maintain and repair electrical equipment at job sites and facilities (revamp electrical systems when needed), and make related other repairs as needed.
- Repair or replace deep well turbines, and various other lift-stations and booster pumps and systems.
- Trouble shoot pumps, motors and electrical wiring, breakers, receptacles, meters, panels, controls, monitors and electrical systems and equipment without direct supervision.
- Test and evaluate indoor and outdoor electrical wiring, breakers, receptacles, meters, panels, controls, monitors and other related electrical system components, and make necessary repairs and renovations.
- Take care of tools and equipment.
- Follow oral and written instructions.
- Use independent judgment and initiative.
- Test pumping of new and redrilled wells.
- Clean old wells with bailer or blow pipe and compressor.
- Respond to emergency situations.
- Work overtime as may be required.
