With the 2021 growing season coming to an end, Merced Irrigation District will continue water deliveries through October 31. Growers are urged to make final orders as quickly as possible and before October 27.

“With less water in the system this time of year, it is important that we are able to plan ahead for final deliveries,” said Bryan Kelly, Deputy Manager of MID Water Resources. “Thanks to the coordination between our operations staff and growers, we’ve had a successful season in spite of the drought. We are seeking to finish the season meeting our growers’ needs as best as possible.”

Options for ordering water include:

- Orders may be placed anytime online at www.mercedid.org.
- Orders may be placed anytime using MID’s automated water ordering system at (866) 825-2475.
- During weekday business hours, orders may be placed by calling MID Customer Service at (209) 722-2720 or toll-free at (800) 750-2720.
